

Update to Club Covid regulations

Wednesday 6th April

- Vaccine Passes are no longer compulsory for access, but the Club reserves the right to ask to see one if the person will be in a close contact situation e.g. with an instructor for a Trial Flight.
- Do not come to the Club if you are feeling unwell.
- Masks are encouraged, particularly inside, and may be required for flights with two people on board.
- Good hygiene practices are still very important - e.g. hand washing and sterilising of controls and other commonly used surfaces.
- Social distancing is also still a good safety precaution.

Thank you for your cooperation.
